Five suits were filed Wednesday against W. W. Thomas, proprietor of the People's Tea, Spice and Baking Powder Company, in the United States Court at Cincinnati. The Tobacco Fair program is ready. It's a pleasant thing to scan; it's versatile, entertaining and instructive. Names of men famous in the annals of Tobacco are down for addresses and small services. The Committee had no trouble in getting them; they saw the real need for such a gathering and only awaited the chance. Maysville's Board of Trade saw the opening, placed the wedge and is daily driving it through the log; it will be split wide open by Saturday, January 20th. Washington Opera-house won't hold the people and an overflow meeting is being arranged. The comfort of the press will be looked after and courtesies extended others. The Tobacco Fair is an assured success.

WEEK OF PRAYER.

Service Tonight To Be Held In the Christian Church.

The service tonight will be held at the Christian Church, led by Rev. John Barbour of the First Presbyterian Church.

"Foreign Missions" will be the subject for the evening.

Prayer—That we ourselves, with all Christians, may loyally acknowledge our Saviour's last command, and have full faith in his parting promise; that appreciating the spiritual need of those who know not the one true God and Jesus Christ whom God did send, we may realize our personal responsibility for giving them the Word of life; that we may see in every open door, an urgent opportunity which we can neglect only at our peril; that we may comprehend the sadness of the fact that, at the end of nineteen centuries, so much remains to be done in making the Gospel known; and that all Foreign Missionary organizations may work in wisest, most cordial co-operation.

"Go ye therefore, and make Disciples of all the Nations, baptizing them into the name of the Father and of the Son and the Holy Ghost; teaching them to observe all things whatsoever I command you; and lo, I am with you always, even unto the end of the world."

Mr. James S. Huff of Cynthia has been suffering for some time from a very sore arm sustained by a fall.

A NEWS item says the section of Covington known as "the flats" is overrun with snails. The other part of the town must have gotten too slow, and the enterprising citizens moved over in a body to the new section.

DEMOCRATIC papers are quick to resent the idea that the present prosperity and era of good wages are the result of a Republican Administration. But who would have come in for the blame in case no prosperity had occurred?

"THE 10 per cent. increase is merely a restoration of old-time wages," sneers the Democratic Brooklyn Citizen. True enough; but the old-time wages were under a Republican Administration, and the restoration by another Republican Administration is made necessary by the blunders of an intervening Democratic regime.

"INERT, lethargic, doing nothing, waiting for something to turn up, Populists have not availed themselves of their opportunity," says The Philadelphia American, the most prominent Populist paper in the United States. Just on the eve of choosing dates for National Convention, this sort of talk is significant and creates an impression that things look blue at the Pop headquarters.

THE LEDGER isn't losing any sleep on account of BILL GOEBEL's threats to make himself Governor and land CHARLIE POYTZ in the United States Senate. There are other BILLS a little bigger than GOEBEL—BILL BRADLEY and BILL BRECKINRIDGE, for instance, to say nothing of BILL TAYLOR. When GOEBEL gets to be Governor every old maid in Maysville will be happily married.

OUR neighbor TOM DAVIS of THE MAYSVILLE LEDGER celebrated the new year with a new dress for his paper. Now, if he would just write some good Democratic editorials to use that new type it would make mighty interesting reading.—Flemingsburg Times-Democrat.

That's just exactly the kind of editorials THE LEDGER man does write—the true Jeffersonian-Jacksonian-Bentonian brand. The trouble is, the modern Goebelite doesn't know the real simon-pure article when he meets it in the road.

THE HON. JOSEPH CONFEDERATE STATES BLACKBURN has, to all intents and purposes, been elected United States Senator by the Kentucky Legislature, as the successor of Senator LINDSAY. During the recent campaign Mr. BLACKBURN repeatedly stated from the stump that he "did not want to go to the Senate unless his certificate was signed by WILLIAM GOEBEL." Inasmuch as GOEBEL is not Governor and will not sign the certificate, JOSEPH will go to Washington without the coveted signature. He must acknowledge that General TAYLOR is really the Governor of Kentucky and accept his name at the Southeast corner of the certificate. The fact is, any sort of old signature will do, just so it opens the Senate doors to let JOSEPH pass in.

Why do you persist in paying 10c for a package of Macaroni when you can get the freshest and best in town from us at 7c a package. H. E. Langdon & Co.

August Flower.
"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at J. C. Peck's Drugstore. Sold by all dealers in all civilized countries.

CONTROL OF CUBA

Gen. Wood Has Made His Plans and Issues an Important Order to Officers.

THE POWER OF CIVIL AUTHORITIES.

It Will Have Jurisdiction Where Ever the Military Authority is Not Absolutely Necessary.

The Military Must Never Be Employed Except Where the Civil Power is Found to Be Ineffective.

Havana, Jan. 12.—Gen. Wood has issued an order defining the relations between the civil and military authorities. Except a purely supervisory sense the military authorities will not interfere in the conduct of civil affairs beyond matters of sanitation and public undertakings of a sanitary character. The military authorities will also have general jurisdiction of all the rural guard of the island. Engineer of the case will act under authority of Senor Villalon, secretary of public works. Cuban engineers have been appointed as rapidly as possible, and thus the department of public works will gradually come entirely under Cuban control, subject only to Gen. Woods' approval.

The military commanders throughout the island have received instructions to visit the prisons in their jurisdictions at least once a month, to make full reports and to prevent the recurrence of such abuses as have long existed, but are now being remedied, as rapidly as possible.

All the commanders have been notified that the military must never be employed except where the civil power is found to be ineffective. Office hours for all insular officers have been fixed at from 9 to 11 a. m. and from 12 to 3 p. m.

Senor Varona, secretary of finance, asserted that Gen. Wood had assured him of his intention to deliver the management of the finances of the island by degrees into the hands of the Cubans. Weekly statements of the customs receipts are to be handed to Senor Varona, as well as statements of Cuban moneys expended by the intervening government.

Gen. Wood also told him, he says, to arrange the personnel of his office so as to get the work done to the best advantage. Senor Varona observed that this would be a difficult matter, especially in the existing state of public opinion, which regards government employment as a legitimate reward for political services.

The Patria says: "A solemn manifestation of protest against the assignment of a foreigner to the bishopric of Havana is being prepared and will be signed by many prominent Cubans."

Carlos Garcia has been named inspector general of prisons. The Cuban says the appointment is a good one, as Garcia is well qualified for the position.

DRAGS SLOWLY ALONG.
Two More Witnesses Give Damaging Evidence Against Mollieux at the Great Trial.

New York, Jan. 12.—The principal witness in the trial of Roland B. Mollieux for the murder of Katherine J. Adams was Prof. Rudolph H. Witthaus, the well-known chemist, who made an analysis of Mrs. Adams' stomach, of various portions of Harry C. Barnett's exhumed body and of the box containing an effervescent salt which it is said Barnett took before his death. Dr. Witthaus said that he found mercuric cyanide in the contents of the Barnett box and the common constituents of Kutnow powder. He found a small quantity of cyanide and mercury in Barnett's liver. In the kidneys he found mercury, and in the brain mercury.

Mrs. Florence E. Rogers, daughter of Mrs. Adams, and who was present at the time of her mother's death, described the poisoning. Mrs. Rogers was very self-possessed and showed no emotion. Her story agreed with that told by Harry Cornish, and a long cross-examination could not shake her testimony.

New Cruiser Tried.

Newcastle, England, Jan. 12.—The new United States cruiser Albany, which was given an official trial off this port January 9, has just completed her endurance trial, consisting of a continuous run of six hours under natural draught. The test was very successful. The ship behaved well in a heavy sea.

Long Illness Ends in Death.

Maryville, Mo., Jan. 12.—Mrs. Martina Moorehouse, aged 62 years, widow of Albert P. Moorehouse, ex-governor of Missouri, is dead here after a long illness. Gov. Moorehouse committed suicide at his home here in 1891.

Found Dead in His Office.

St. Louis, Jan. 12.—Dr. J. C. Mulhall, a prominent physician, was found dead in his office. He had been shot but whether by accident or not is not known at present. A pistol was found beside the body.

Death Sentence Commuted.

Boston, Jan. 12.—By a unanimous vote the executive council commuted the sentence of Edward Ray Snow, the 19-year-old murderer, from death by electricity to life imprisonment.

PHILIPPINE QUESTION.

Senator Pettigrew Attacks the Administration's Policy, Calling It a Political Scheme.

Washington, Jan. 12.—A spirited and at times sensational debate was precipitated in the Senate on the Philippine question, the basis for the speech-making being a resolution of inquiry offered several days ago by Mr. Pettigrew.

Mr. Pettigrew attacked the administration's policy in the Philippines, and also made some startling charges against those who were supporting the administration. He declared that a systematic effort was being made to prevent accurate information from reaching the people of the United States, and that it was a political scheme to further the candidacy of Mr. McKinley for re-nomination and re-election.

The debate was terminated by a resumption of consideration of the currency bill at 2 o'clock.

Mr. Stewart (Nev.) made an elaborate speech on the question of the national finances.

Before adjournment, the senate, after a prolonged debate, passed the bill conferring additional powers upon the director of the census.

A bill increasing the limit of cost of the Indianapolis public building to \$2,500,000 was called up by Mr. Fairbanks (Ind.) and passed.

The senate then, at 5:10 p. m., went into legislative session, and soon afterward adjourned until Monday.

The Roberts Case.

Washington, Jan. 12.—The Roberts investigation committee held a protracted executive session in hope of reaching a conclusion, but so many legal questions were discussed that a final result was not reached, nor any vote taken indicating the standing of the committee. A member of the committee is authority for the statement that the delay is due mainly to a desire to secure unanimity and to avoid, if possible, two reports. The members are practically agreed on the facts involved. The differences relate to the manner of excluding Mr. Roberts.

Panama Canal Scheme Favored.

London, July 12.—The Times, commenting editorially upon the possibility of the United States building the Panama canal, says: "Since the Venezuela boundary dispute has been settled and Anglo-American friendship has been sealed, the Panama scheme is more likely to be carried out than the plan for a Nicaragua canal. England would certainly not be jealous of America if the latter complete the Panama canal, being satisfied that the United States would treat British shipping in a liberal spirit."

Bringing Officers' Bodies Home.

San Francisco, Jan. 12.—Gen. Shafter received a telegram from Nagasaki, sent by Maj. Hyde, quartermaster of the Thomas, stating that the body of Gen. H. W. Lawton is on this transport, which is due in San Francisco on January 29. The body will be escorted to Washington by Gen. Shafter himself, accompanied by his aide, Lieut. Eugene T. Wilson, 3d artillery. The body of Maj. Logan is also on the Thomas.

Contributors to the Dewey Home.

Washington, Jan. 12.—Treasurer Roberts and Assistant Secretary Allen presented to Adm. Dewey the beautiful volumes recently prepared containing the names of the contributors to the Dewey home, together with a history of the efforts to raise the money for the home. The presentation was made at the admiral's home, and was without ceremony. The admiral expressed his gratitude for the present.

Not Treason, but Blackmail.

Victoria, B. C., Jan. 12.—Parliament will be asked to investigate widely circulated reports of pro-Boer organizations in this city. Investigations so far indicate that there has really been no treasonable organization or local subscription for the Transvaal cause, but that residents of German or Belgian or Italian nationality have been blackmailed by unscrupulous persons.

Indian Famine Relief Organized.

Ablene, Kan., Jan. 12.—Citizens of Dickinson county have organized an Indian Famine Relief association with J. K. Forney, recently returned from India, as president. Its object is to send Kansas corn to River Brethren missionaries at Bombay for free distribution. The corn will be contributed by farmers and shipped from here.

Land Company Assigns.

New York, Jan. 12.—The New York and Staten Island Land Co. has made an assignment. Liabilities, \$225,000, of which \$25,000 is unsecured; assets, \$500,000, consisting of improved real estate.

An Old Bookseller Passes Away.

Boston, Jan. 12.—Alexander Williams, bookseller and publisher, died at his home here, aged 81 years. Mr. Williams was for many years proprietor of the corner book store.

Vessel Sails for Cape Town.

New York, Jan. 12.—The steamship Auchenard sailed from Brooklyn for Cape Town. Besides an immense cargo of provisions, flour and grain, she carries 20 troop horses and 50 transport mules.

Soldier Dies of Yellow Fever.

Washington, Jan. 12.—Gen. Wood, at Havana, has notified the war department of the death on the 10th inst., at Guanajay, of Private Albert E. Russell, Company L, 1st infantry, of yellow fever.

Parliament Meeting Proclaimed.

London, Jan. 12.—The queen has proclaimed the meeting of parliament for January 30.

CENSOR KEPT UP.

No News Has Been Given Out By the British War Officials in London.

CLAIMS THAT THERE IS NOTHING NEW

Even the Mail Correspondence Has Shown Signs of Habitual Scissoring By the Censor.

The British Public Are Clamoring for the Truth, and Many Conjectures Are Being Made as to What Has Taken Place.

London, Jan. 12.—The newspapers were reconciled during the early days of the war with the cable censorship, taking it for granted that full narratives sent by mail would supply all deficiencies. For some weeks, however, even the mail correspondence that has arrived in London has shown signs of habitual scissoring by the censor. Pages are numbered without chronological or logical connection, leaving the happenings described quite unintelligible in many cases. The editors, acting possibly in concert, are laying these facts before the public and insisting that they be permitted to know and to print the facts.

the British losses were 14 officers killed, 34 wounded and over 500 non-commissioned officers and men killed or wounded.

"The Boer losses, we hear, are estimated at between 2,000 and 3,000."

Not Starving in Ladysmith.

London, Jan. 12.—A dispatch to the Daily Mail from Pietermaritzburg, dated January 8, says: "Private advices from Ladysmith dated January 2, say that rations of bread and meat are plentiful and the garrison had not then touched the 'Bully' beef and biscuit. Luxuries are scarce in Ladysmith, but the hospitals are well supplied with milk, and the horses are in good condition."

Waiting for Lord Roberts.

London, Jan. 12.—The Cape Town correspondent of the Daily Mail telegraphing Monday says: "The vanguard of the Sixth division is awaiting at Table Bay until the arrival of Lord Roberts."

Large Camp of Boers Seen.

London, Jan. 12.—The Standard has the following dispatch, dated Monday, from Frere Camp: "Out patrols have searched both flanks of the Boer position. They found a large camp five miles east of Colenso, evidently in anticipation of a British attempt at a turning movement."

Transvaal Travelers Inspected.

Lourenco Marques, Jan. 10.—Inspection of travelers bound to the Transvaal is revived under an old law. No one will be allowed to proceed unless he declares before his consul that he has no intention of fighting for the Boers.

THE WAR IN SOUTH AFRICA.

British Soldiers Tapping Wires and Using Them for Telephoning.

Chronicle avers that there seems to be an official conspiracy against letting the truth be known.

Although the number of deaths from dysentery and enteric fever at Ladysmith have been published by the war office since Saturday's fight, nothing has been given out regarding the losses in the engagement. The war office asserts that it has nothing to give out.

Arm chair critics who, in the absence of reportorial of official descriptions from the seat of war, pour forth pages of conjecture and opinion, conclude that not much is to be expected from the British hosts in South Africa until Lord Roberts shall have had plenty of time to think and fresh levies shall have arrived. Time is working now for the Boers. Each day makes more difficult the three beleaguered positions.

Although the war office declines to confirm the report that Lord Methuen has been recalled to England, inquiries made by a correspondent at Methuen's home, in Wiltshire, have elicited the information that when he received his wound his horse threw him heavily and spinal and other injuries supervened.

The theory is now advanced that the seizure of the German mail steamers Herzog and General, since released, were made on purposely misleading information supplied to British agents, the desire being to embroil Great Britain and Germany in a quarrel.

Lee-Metford cartridges are running short in the British magazines, and, according to a semi-official report, the war office purposes to fall back temporarily on 100,000,000 "Mark Iv" expanding bullets, which are at storage in South Africa.

The war office, however, has issued a strict order to the volunteers that the 50 rounds of "Mark Iv" given them must be used in practice at home, none being taken to South Africa.

After the public announcement that no such bullet would be used in the war, its employment, the Daily Chronicle thinks, would be a serious breach of faith, especially as the British commanders have complained that the Boers occasionally use such projectiles.

NEEDS OF PORTO RICO.

Three Delegations Have Started for the United States to Explain the State of Affairs.

San Juan de Porto Rico, Jan. 12.—The three delegations recently appointed to lay before the government at Washington the special needs of Porto Rico, sailed for the United States. Senators Finlay, Luce and Jones will go in behalf of the chamber of commerce, Senors Gonsens and Amedeo will represent the agricultural interests, and Senors Ames and Larrinaga, the federal party. Senors Morales and Lattimer, the republican delegates, will probably sail on Saturday. All are representative Porto Ricans, thoroughly acquainted with the conditions in the island and well able to give all necessary information to the administration or to congress.

The provisional court has rendered a decision that the people of Porto Rico in their aggregate capacity are not sovereign and have no legal right to sue collectively. The matter was brought up in connection with the annulment of the election in Guayama, where the local court had claimed the right to issue a writ annulling the election as an incident to the sovereignty of the people. A demurrer filed by the complainants sought to be removed, was sustained.

Vessel Sent to Quarantine.

San Francisco, Jan. 12.—The steamer Moana has arrived from Australian ports via Apia, Samoa, one day ahead of schedule. It is not yet known whether the vessel stopped at Honolulu, but as she has been sent to quarantine, it is surmised that she did, and that the health officials are making a rigid examination of her passengers and crew to guard against the black plague, which at last accounts was gaining victims in the Hawaiian capital.

Assault in the First Degree.

New York, Jan. 12.—The grand jury has found an indictment for assault in the first degree against Willis Rosser, the medical student who shot Frederick Slater, of Rahway, N. J. Rosser, while a soldier, recently killed a man in San Francisco and was tried and acquitted.

Preserve for American Bison.

The promoters of the telephone line from Carlisle to Bluelick Springs are talking of extending the line to this city by way of Mt. Olivet, providing they receive the proper encouragement.

Clerk Robert E. Lee of the Palace Hotel, Cincinnati, is exhibiting as an interesting trophy of the Spanish-American War a battle flag captured by the Third Kentucky Volunteers during their presence in Cuba in 1898. It was given Mr. Lee by Mr. Brinker, who was a member of the Regiment and helped to take it from the Spaniards. The flag bears the royal coat of arms of Spain, and is a very handsome decoration. It is additionally interesting from the fact that through the center is a big rent, made by a Yankee bullet.

QUIT SWALLOWING DIRT.

One Hundred Feet of Farmland in Every Drink You Take.

Robert J. Burdette.

My homeless friend with the chromatic nose, while you are stirring up the sugar in a ten-cent glass of gin, let me give you a fact to wash down with it. You say you have longed for years for the free, independent life of a farmer, but have never been able to get money enough to buy a farm. But there is where you are mistaken. For some years you have been drinking a good improved farm at the rate of one hundred square feet at a gulp. If you doubt this statement figure it out for yourself. An acre of land contains 43,560 feet; estimating, for convenience, the land at \$43.56 an acre, you will see that it brings the land to just one mill per square foot. Now pour down the fiery dose, and imagine you are swallowing up a strawberry patch. Call in five of your friends and have them help you gulp down that 500 feet garden. Get on a prolonged spree some day and see how long it will take you to swallow a pasture land to feed a cow. Put down that glass of gin; there is dirt in it—one hundred feet of good rich dirt worth \$43.56 per acre.

Why be satisfied with 16 or 17 pounds of Sugar for \$1 when you can get 20 pounds of the very finest Granulated Sugar for \$1 at our store by buying 50¢ worth of other goods? Of course we have to ask this, otherwise the merchants would have a picnic, as this is less than Jobbers' cost! H. E. Langdon & Co.

Many an innocent little darling is suffering untold agony and cannot explain its troubles. Mark your child's symptoms; you may find it troubled with worms. Give it White's Cream Vermifuge and restore it to quietness and health. Price 25 cents. J. Jas. Wood & Son.
